

Mahamadayaz Momin

Application Developer, Belagavi, India

✉ m.mahamadayaz@gmail.com, [LinkedIn](#), [GitHub](#)

3+ years of experience as a **Java and Flutter Application & Web Developer** with expertise in developing, deploying, and maintaining **scalable web applications** using **Java & Flutter based technologies**. Skilled in **Java, Flutter, Dart, RESTful APIs, Git, GitHub, FCM, Firebase, Putty, Android Studio** and **database management**. Proficient in building **responsive user interfaces** integrating **APIs**, and optimizing **application performance** for **scalability** and **reliability**.

PROFESSIONAL WORK EXPERIENCE

- **App Developer** with **Sajre Edutech Pvt. Ltd. Dharwad** from Sep 2025 to May 2026.
- **Full Stack Java Developer** with **Anthropic Softwares Pvt. Ltd. Belagavi** from Nov 2022 to Jun 2025.
- **Quality Assurance Engineer** with **SFS Group India Pvt. Ltd. Belagavi** from Aug 2021 to Sep 2022.
- **DCS Shift Engineer** with **Soubhagya Laxmi Sugars Pvt. Ltd. Gokak** from Mar 2020 to May 2021.
- **Design Trainee** with **Apollo Institute, Pune** from Nov 2019 to Feb 2020.

TECHNICAL COMPETENCIES

- **Languages** : HTML, CSS, JavaScript, Java, Dart
- **Development Tools** : Visual Studio Code, Android Studio, Eclipse
- **Frameworks & Libraries** : Spring Boot (Java), Flutter (Dart), Bootstrap
- **Database** : MySQL, SQL
- **Version Control** : Git, GitHub, Subversion (SVN)
- **Networking** : HTTP, TCP/IP, UDP
- **API & Web Services** : RESTful API Testing with Postman
- **AI Tools** : ChatGPT, OpenAI Playground, Google Gemini, ClaudeAI, DALL-E, CanvaAI

EDUCATION

- B.E. (Mechanical Engineering) in 2015 – 2019 from **Visvesvaraya Technological University (VTU)**.

CERTIFICATIONS

- **Full Stack Java Developer** – TestoMeter (Software Training and Consulting Services)
- **The Complete AI Guide: Learn ChatGPT, Generative AI & More** - Udemy
- **Git & GitHub Course (Master Version Control)** – ScholarHat
- **AI Tools Workshop** – Be10x

Deployed Project

- **Project Name:** Sajre's NAS (National Art Summit) Mobile Application
- **Client / Company:** Sajre Edutech Private Limited
- **Role:** App Developer
- **Technologies:** Flutter, Dart, Java, Putty, GitHub.

Project Description:

Developed a B2C online competition platform designed to nurture creativity in children through organized digital art contests. The mobile application provides an end-to-end user journey—enabling parents and kids to view running contests, filter categories by age group, securely pay entry fees, and upload high-resolution artwork. Built an integrated voting, multi-tier judging system, and an automated leader board to handle dynamic results, reward distributions, and certificate generation seamlessly.
